

Commercial, Architectural, Video,
and Aerial photography is based
on an hourly rate. That rate is:

\$250 hr.

This rate includes all high resolution
digital files photographed
during your session.

To produce the best images possible, we
first scout the location. Next we spend
time shooting the desired images, then
post processing and editing in Photoshop
to create stunning finished images. The
hourly rate is based on time spent
photographing only.

Travel is available anywhere and is billed
at \$1 per mile, round trip, beyond the
triparish area, plus expenses.

All invoices are subject to Houma, LA
local and state sales tax.
